About Me

Third-year Computer Engineering student with experience in developing full-stack web applications. Comfortable working across frontend and backend layers, with project experience in API design, authentication, database systems, and AI-driven applications.

Education

Sardar Patel Institute of Technology

Aug 2023 – Present

B.Tech in Computer Engineering — CGPA: 9.44

– Pursuing a Minor in Management from S.P. Jain Institute of Management & Research (SPJIMR), Mumbai.

Indian Institute of Technology Madras

Jun 2023 – Present

BS in Data Science & Business Applications

Muljibhai Mehta International School

Aug 2021 – Mar 2023

Class XII (Science) — 96%

Sheth Vidya Mandir English High School

Apr 2008 – Mar 2021

Class X (SSC) — 97.2%

Projects

SubmitOK – AI-Based Academic Evaluation System | Vue.js, FastAPI, Firebase, Cloudinary Dec 2025 – Jan 2026

- Built an AI-powered academic platform for document validation, plagiarism detection, and grading, reducing faculty workload by 65%.
- Implemented TF-IDF + cosine similarity with cohort-level comparison, achieving 92% plagiarism detection accuracy.
- Integrated LLM-based explainability to generate structured feedback on failed submissions, improving evaluation transparency.
- Designed a scalable system for real-time submission tracking and concurrent document processing (3x throughput).

DayPilot – AI Powered Daily Dashboard | Vue.js, FastAPI, PostgreSQL, Redis

Sep 2025 – Nov 2025

- Engineered a modular full-stack dashboard using Vue.js and FastAPI with integrated services via REST APIs.
- Developed an AI assistant using LLM integration via Groq API with backend orchestration for contextual responses.
- Implemented JWT-based authentication and optimized performance using Redis caching and async API handling.

Quiz Master | Flask, SQLite, Redis, Celery

Jan 2025 – Feb 2025

- Developed a multi-role quiz platform with Flask REST APIs, RBAC, and JWT authentication.
- Designed normalized schemas for quizzes, attempts, and performance tracking.
- Integrated Celery + Redis for async jobs (reminders, reports) and optimized caching for concurrent users.

Technical Skills

Languages: Python, Java, JavaScript, C

Frameworks & Libraries: Vue.js, React.js, FastAPI, Flask, Node.js

Machine Learning: Scikit-learn, TF-IDF, Cosine Similarity, Model Evaluation

Databases & Systems: PostgreSQL, SQLite, Redis, Celery

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Tools: Git, Firebase

Achievements

School Topper in 12th Science with an overall score of 96%.

Secured All India Rank 467 in COMEDK UGET 2023.

Achieved Top Course Grade in the Diploma in Programming at IIT Madras.

Additional Information

Languages: English, Hindi, Kannada, Tulu

Certifications: Diploma in Programming – IIT Madras (Top Course Grade)

Activities: Volunteered with an NGO for beach clean-up drives, contributing to environmental conservation initiatives (2024)
